

***Two Monitors
Are Better
Than One!***

Are You Short on Screen Space?

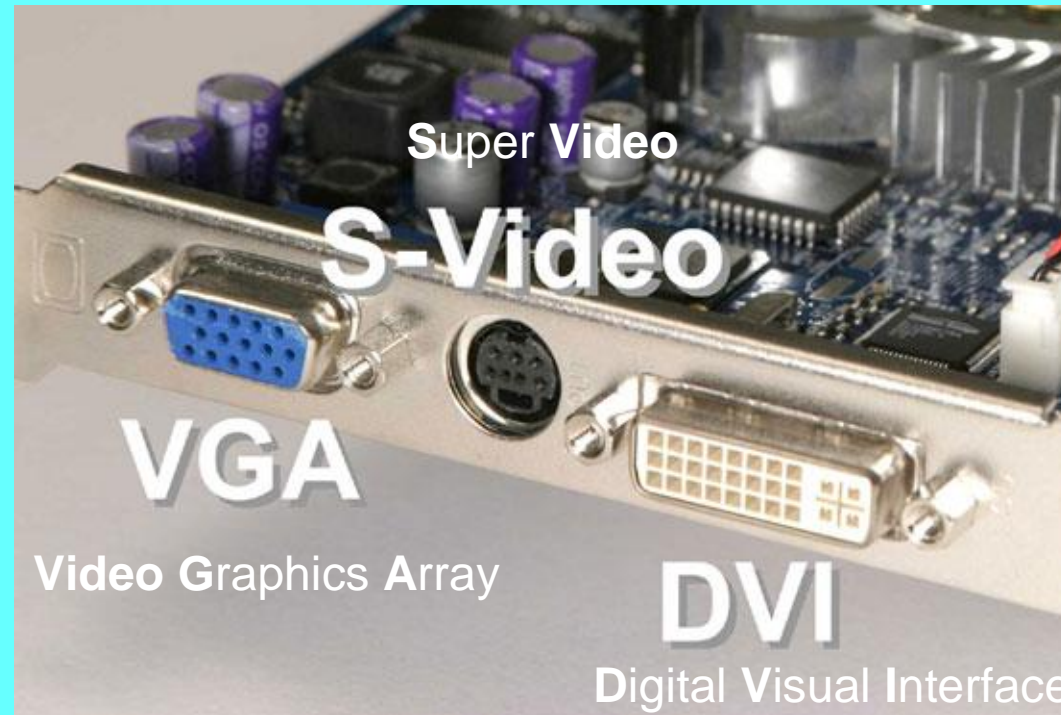

- When working on digital pictures?
- When you want your email and web browser easily available concurrently?
- When you want Excel, Word, and Power Point available concurrently?
- Watching a movie and writing a document?
- Viewing Excel worksheets with many, many columns

Perhaps you don't know how good it could be!

What Solutions are Available!

- One solution is to replace your current monitor with a larger monitor
- An even better solution may be to add a second monitor.
- Solutions using DualView in WinXP and Vista
 - Desktop
 - Laptop
